

WE BUILD SPACES THAT BECOME PLACES

2021 LAYOUT CONCEPTS

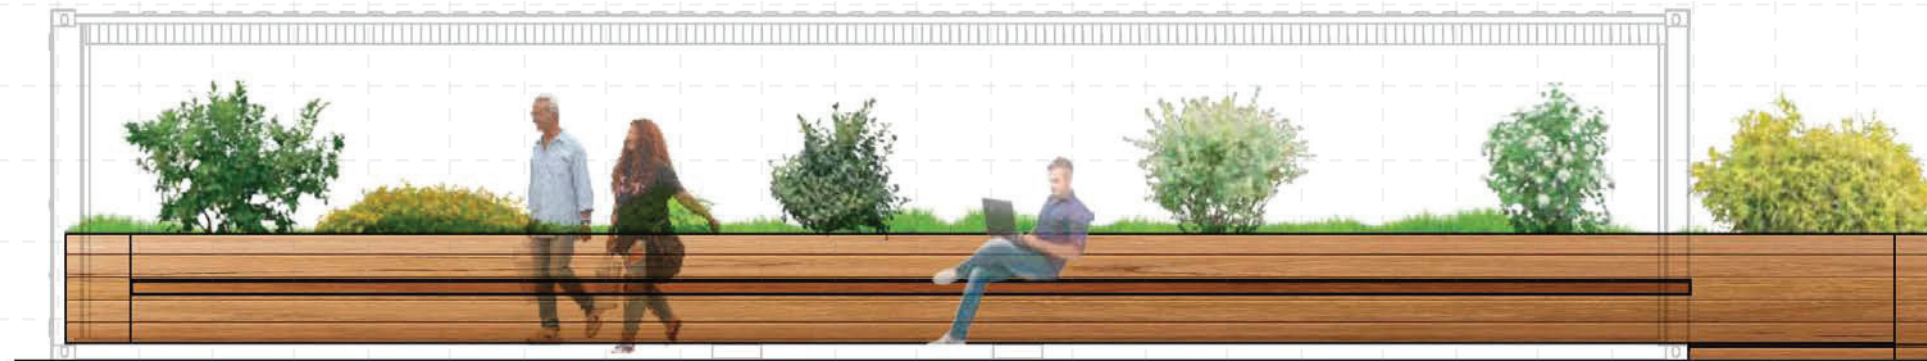

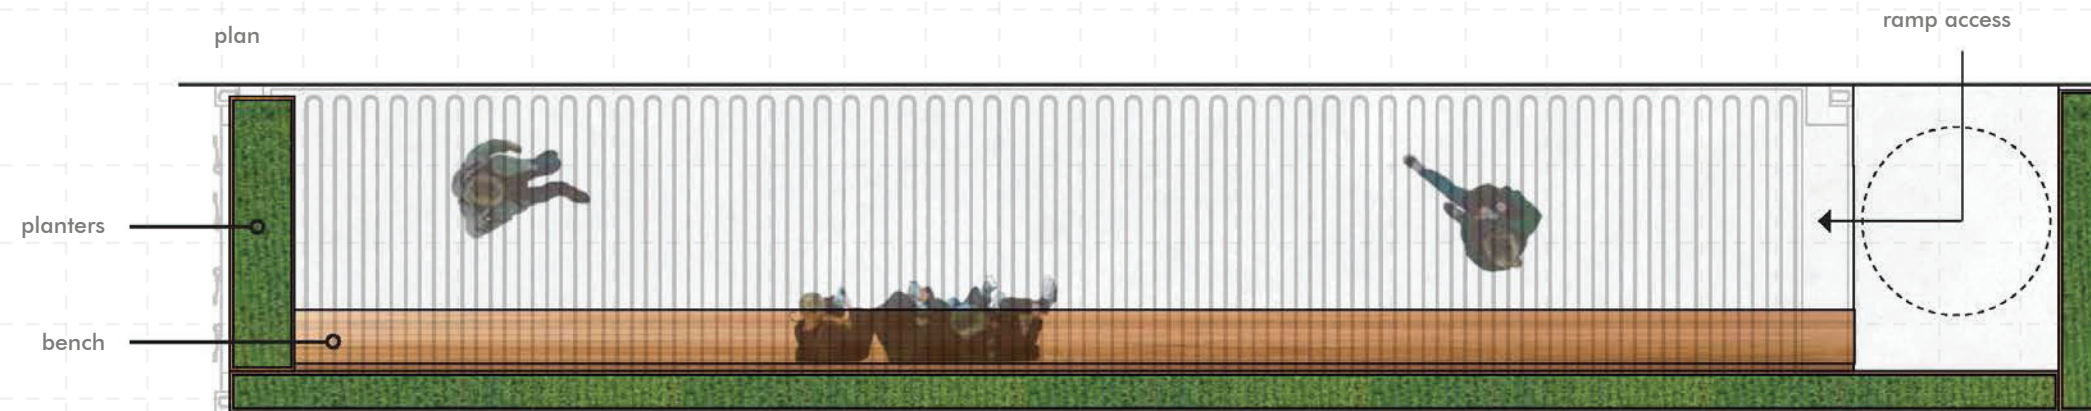

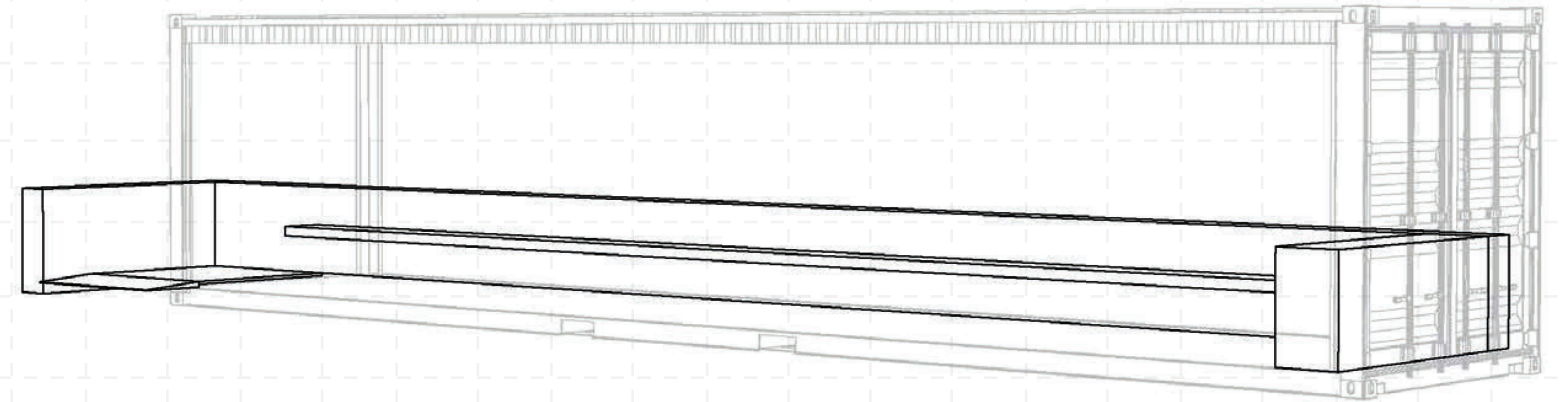

PLACEMAKING

OUR PUBLIC SPACE CONCEPTS

PUBLIC SPACES LAYOUTS

LINEAR

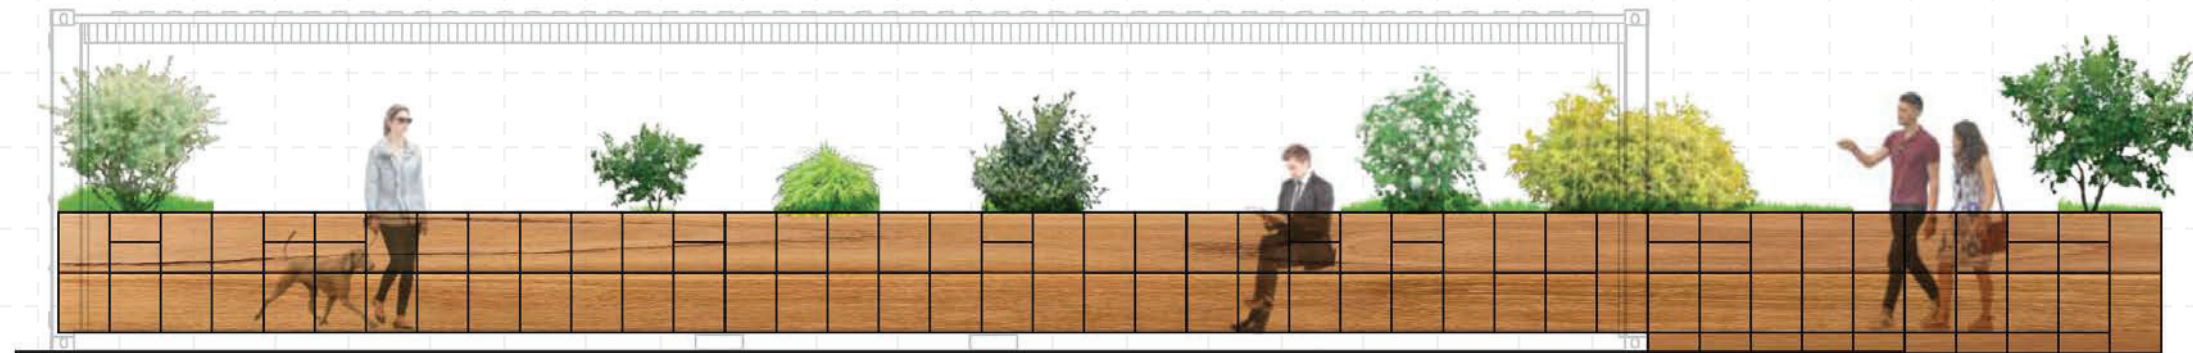

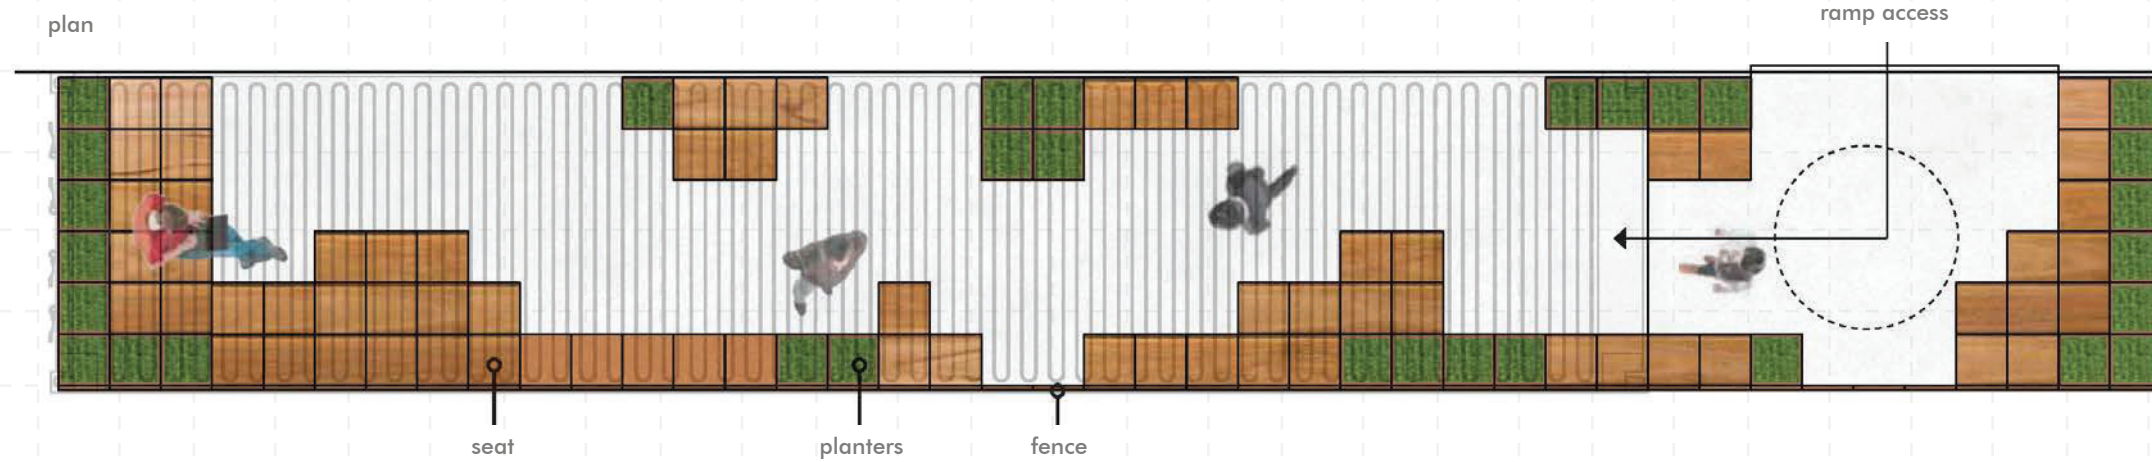

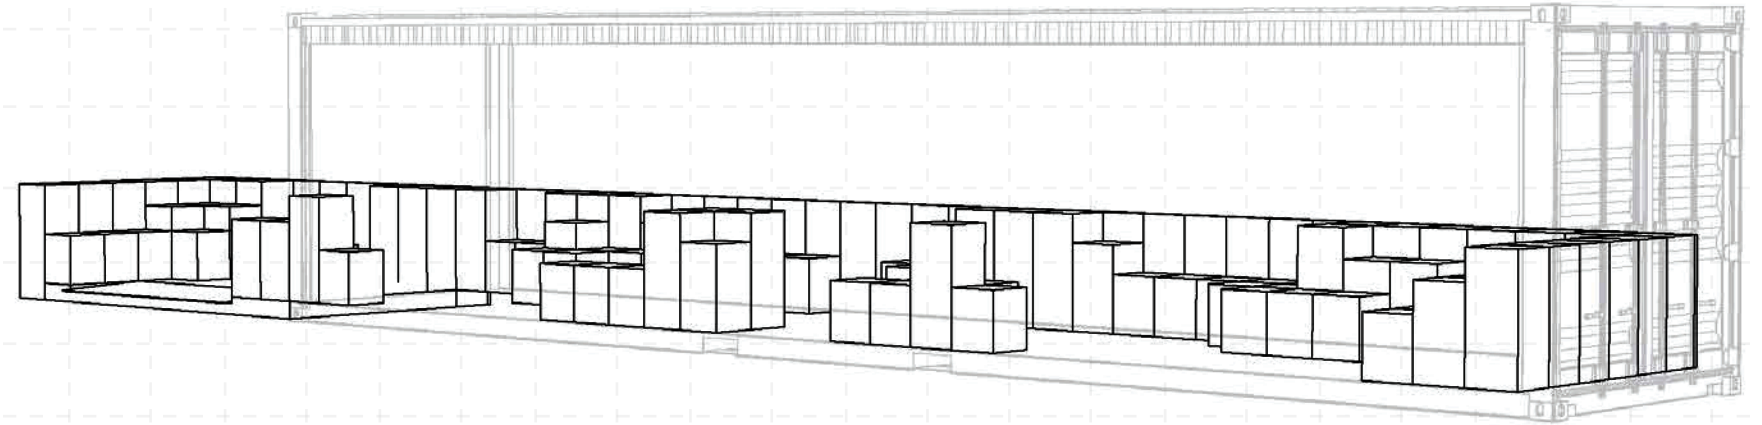

The container becomes a shelter for a bench and planters extending lengthwise paralleling the sidewalk, allowing passers-by to stop and sit.

PUBLIC SPACES LAYOUTS

GRID

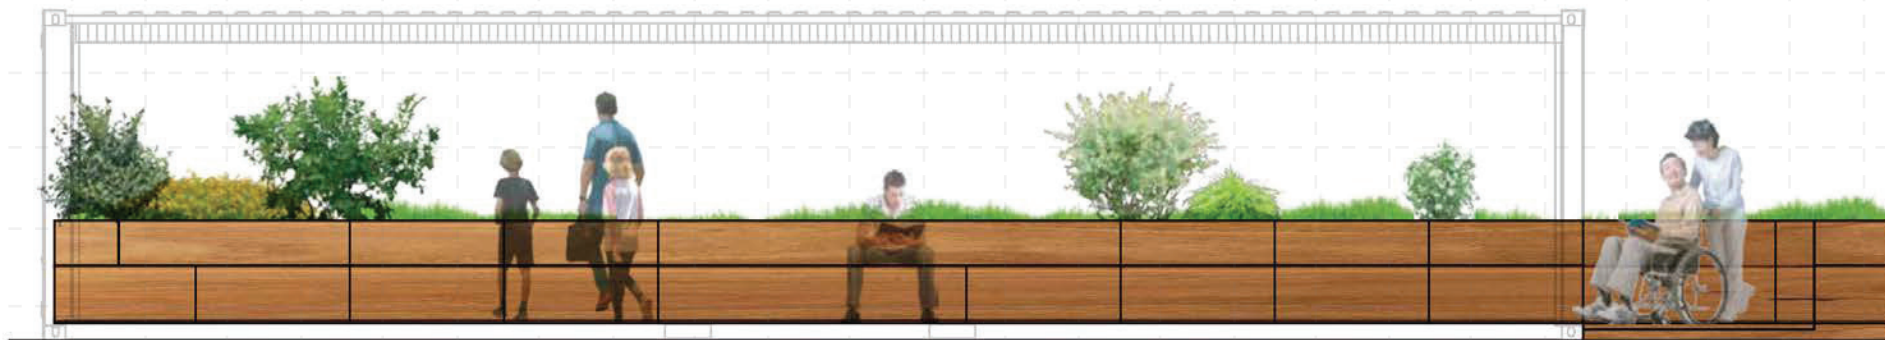

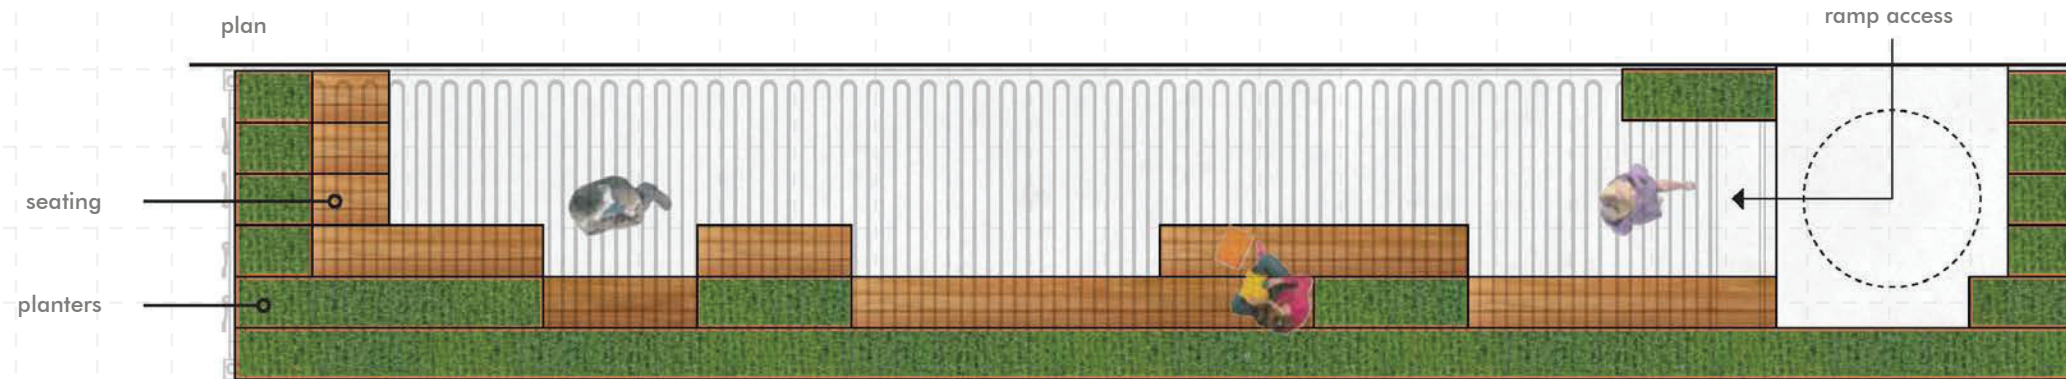

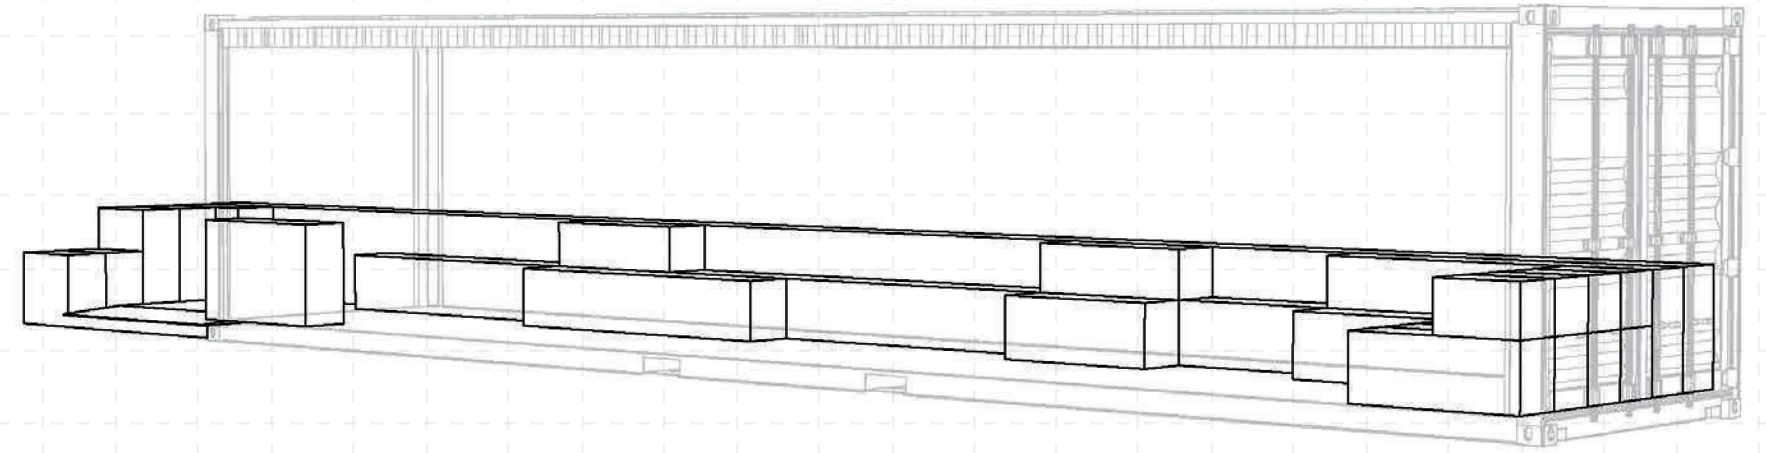

Squares extruded from the ground are arranged following a framework to create the space. Seats and planters become modules that can be added, removed, and re-arranged in time to adapt to new sites and usage.

PUBLIC SPACE LAYOUTS

LINEAR GRID

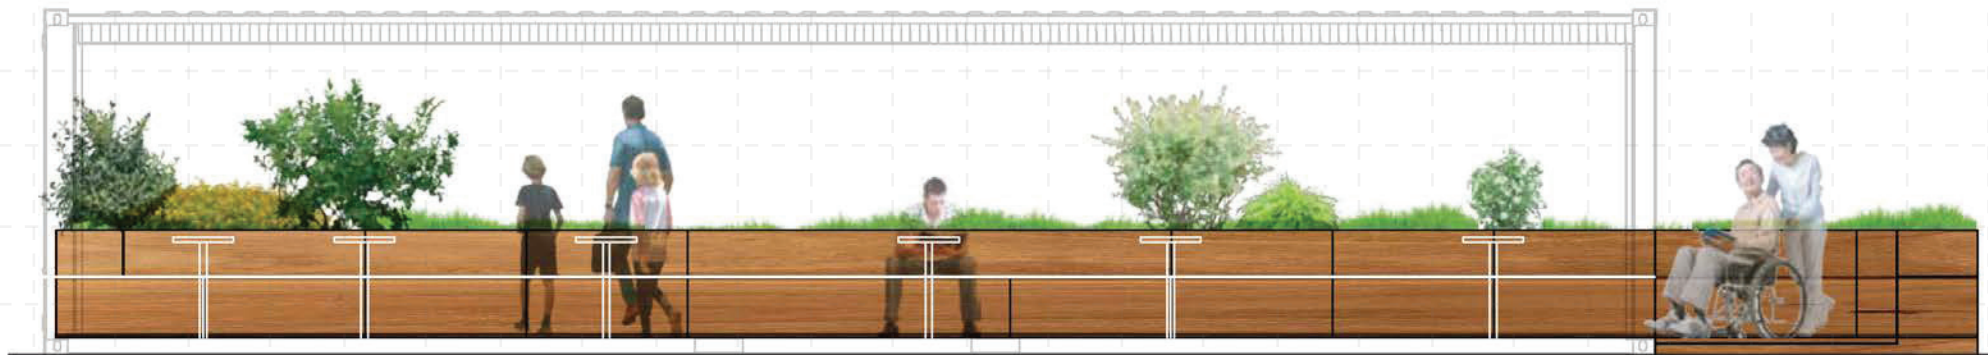

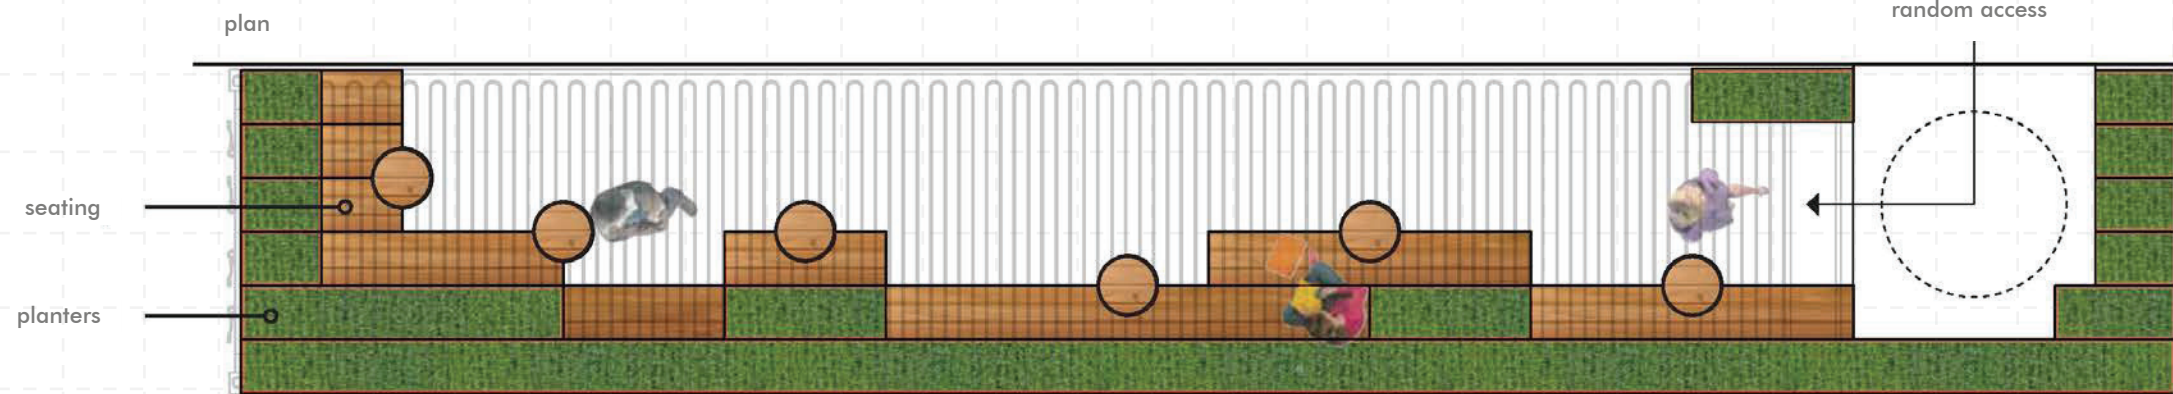

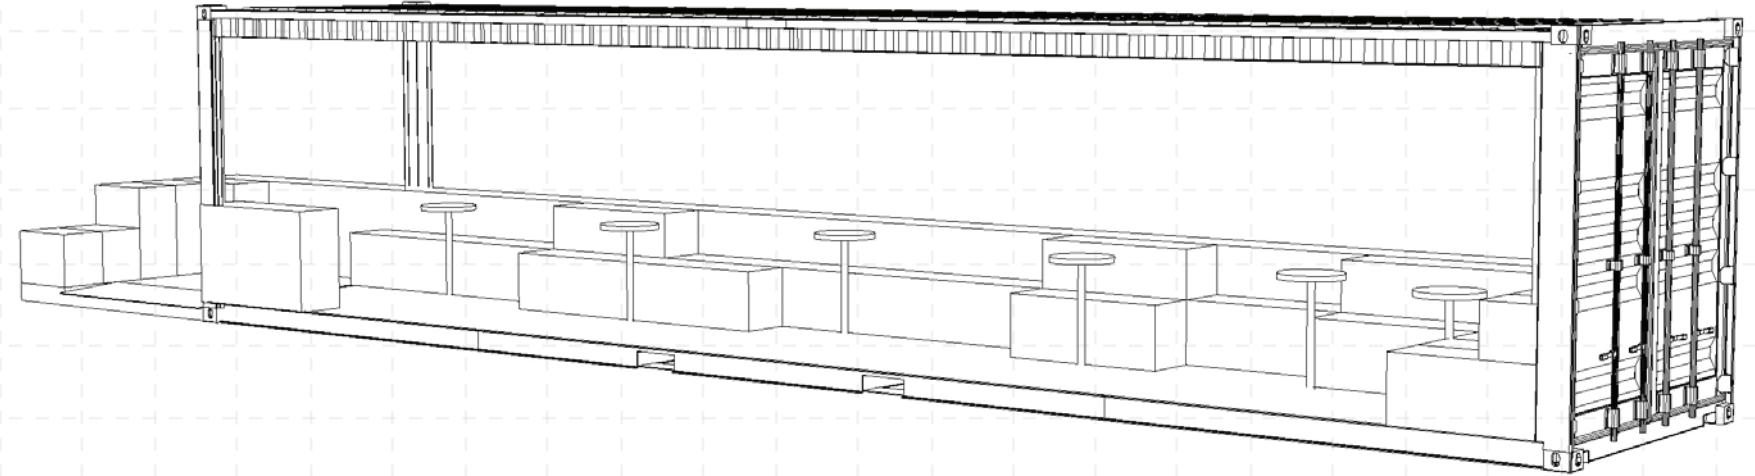

A hybrid of the Linear and Grid layouts, rectangular shapes are aligned lengthwise, creating a fluid and flexible space. Like the Grid layout, the rectangular modules can be added, removed, and re-arranged in time.

PUBLIC SPACES LAYOUTS

LUNCH BOXES

An evolution of the Linear Grid to incorporate dedicated tables for higher functionality.

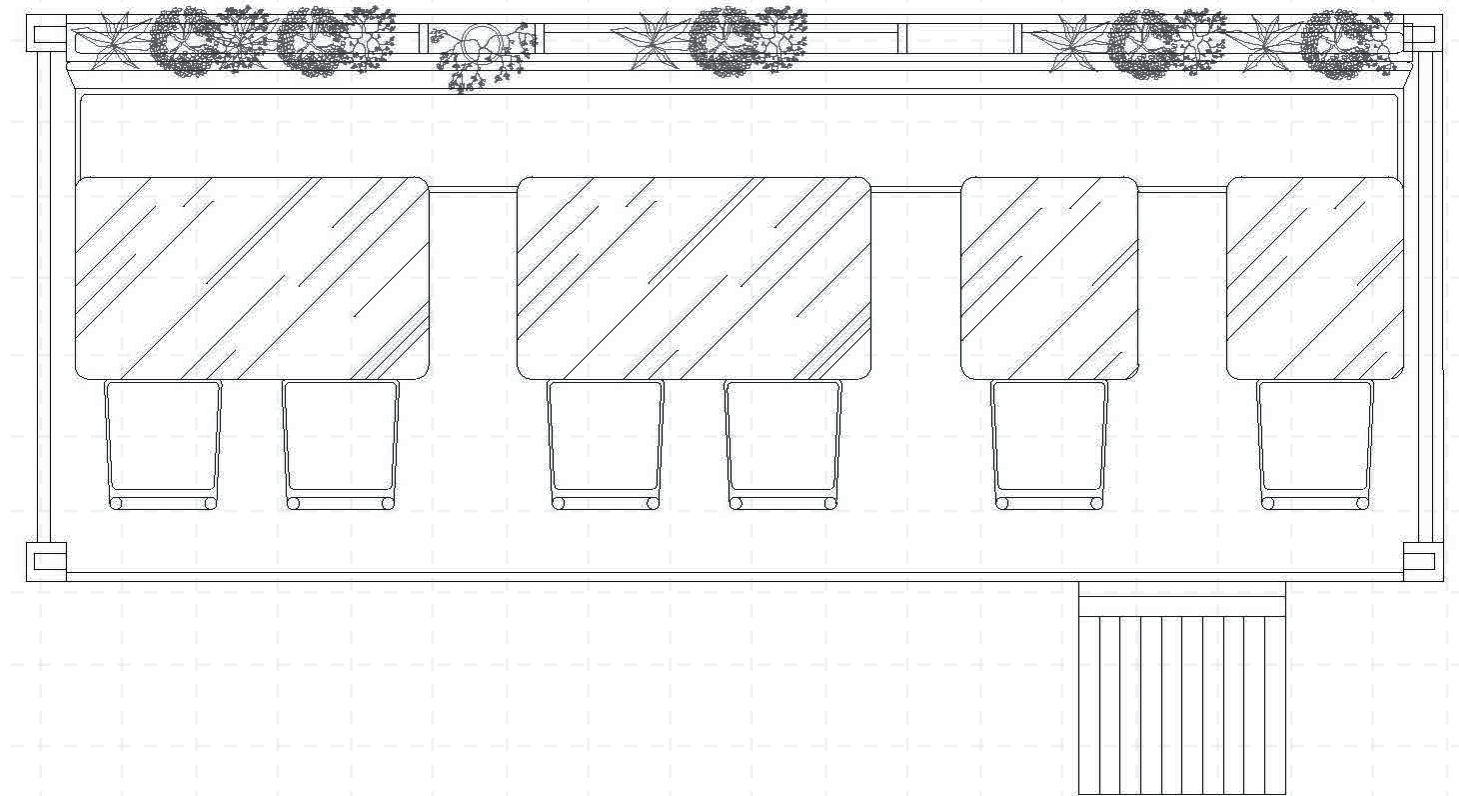

HOSPITALITY LAYOUTS

HOSPITALITY LAYOUTS

FEATURES

- MATTE BLACK INTERIOR AND EXTERIOR PAINT
- INSTALLED WITH EXTENDED PATIO SPACE
- ELECTRICAL SYSTEM
- INTEGRATED INTO A HIGH DENSITY & HIGH TRAFFIC LOCATION
